

Stop the next breach, penalty, or failed audit.

Datagrasp is an all-in-one Governance, Risk, Compliance, and Security platform for lean teams that need to stay secure, prove compliance, and become audit-ready.

COMPLIANCE WORK IS BREAKING UNDER SPREADSHEET SPRAWL

Small and mid-sized organizations face enterprise-level expectations without enterprise-sized GRC teams.

- Disconnected evidence, policies, risks, vendors, and security findings
- Manual reminders and last-minute audit prep
- Limited visibility for leadership, clients, auditors, and partners
- Security and compliance gaps become fines, failed audits, or lost trust

THE MARKET DOES NOT NEED ANOTHER SPREADSHEET. IT NEEDS ONE SYSTEM OF RECORD FOR GRCS OPERATIONS.

A BROAD GRCS PLATFORM BUILT FOR LEAN OPERATORS

Core workflows are centralized instead of scattered across documents, tools, and inboxes.

FRAMEWORK COVERAGE BUYERS ALREADY ASK FOR

The product is positioned for organizations that need practical readiness, evidence, and reporting—not an oversized enterprise GRC deployment.

THE DATA BREACH JOURNEY FOR BUSINESSES

Goal: turn low-friction adoption into durable recurring revenue and partner-led distribution.

EARLY TRACTION WITH A VERY LEAN COST STRUCTURE

Datagrasp is live, monetized, and operating before major outside capital.

GO-TO-MARKET: FOCUSED WHERE COMPLIANCE PAIN IS IMMEDIATE

Datagrasp is built for buyers that need to operationalize trust without building a large internal team.

REGULATED SMBS

Healthcare, nonprofits, government-related entities, and service providers.

PARTNER-LED DELIVERY

MSPs, MSSPs, vCISO teams, CPA firms, and consultants.

TRUST-DRIVEN SALES

Security pages, validation badges, reports, and audit-ready evidence.

RAISING \$300K TO ACCELERATE DISTRIBUTION AND PRODUCT MATURITY

\$300K SAFE

\$3M pre-money target · \$25K minimum ticket · \$0 currently secured in this round

Target post-funding operating plan: approximately \$20K/month for roughly 15 months of gross runway, before revenue offsets.

Use of funds is designed to create repeatable acquisition, expand partner motion, and harden the platform for regulated buyers.
