

BUSINESS PERFORMANCE ACCELERATORS

Savitron AI Private Limited

At the intersection of Domain Expertise, AI & Technology, and Data Intelligence.

Company Credentials | Product Overview

OUR VALUE PROPOSITION

We Transform the Finance Function Through Technology

Savitron AI Private Limited sits at the intersection of domain expertise, technology, and data intelligence. Our aim is to remove manual work from finance using automation and AI.

In finance, accuracy and deterministic behavior come first. We achieve this by:

Finance + Tech, From Day One

Domain and technology expertise combined from the founder level up — not bolted on later.

AI Only Where It Earns Its Place

We strike the balance between accuracy and cost — AI where it helps, not everywhere by default.

Where Finance Teams Spend Their Time

Per McKinsey & KPMG: AI in finance is no longer about adoption — it's about operating discipline. Active use has more than doubled in two years, but only 23% of organizations report AI exceeding expectations.

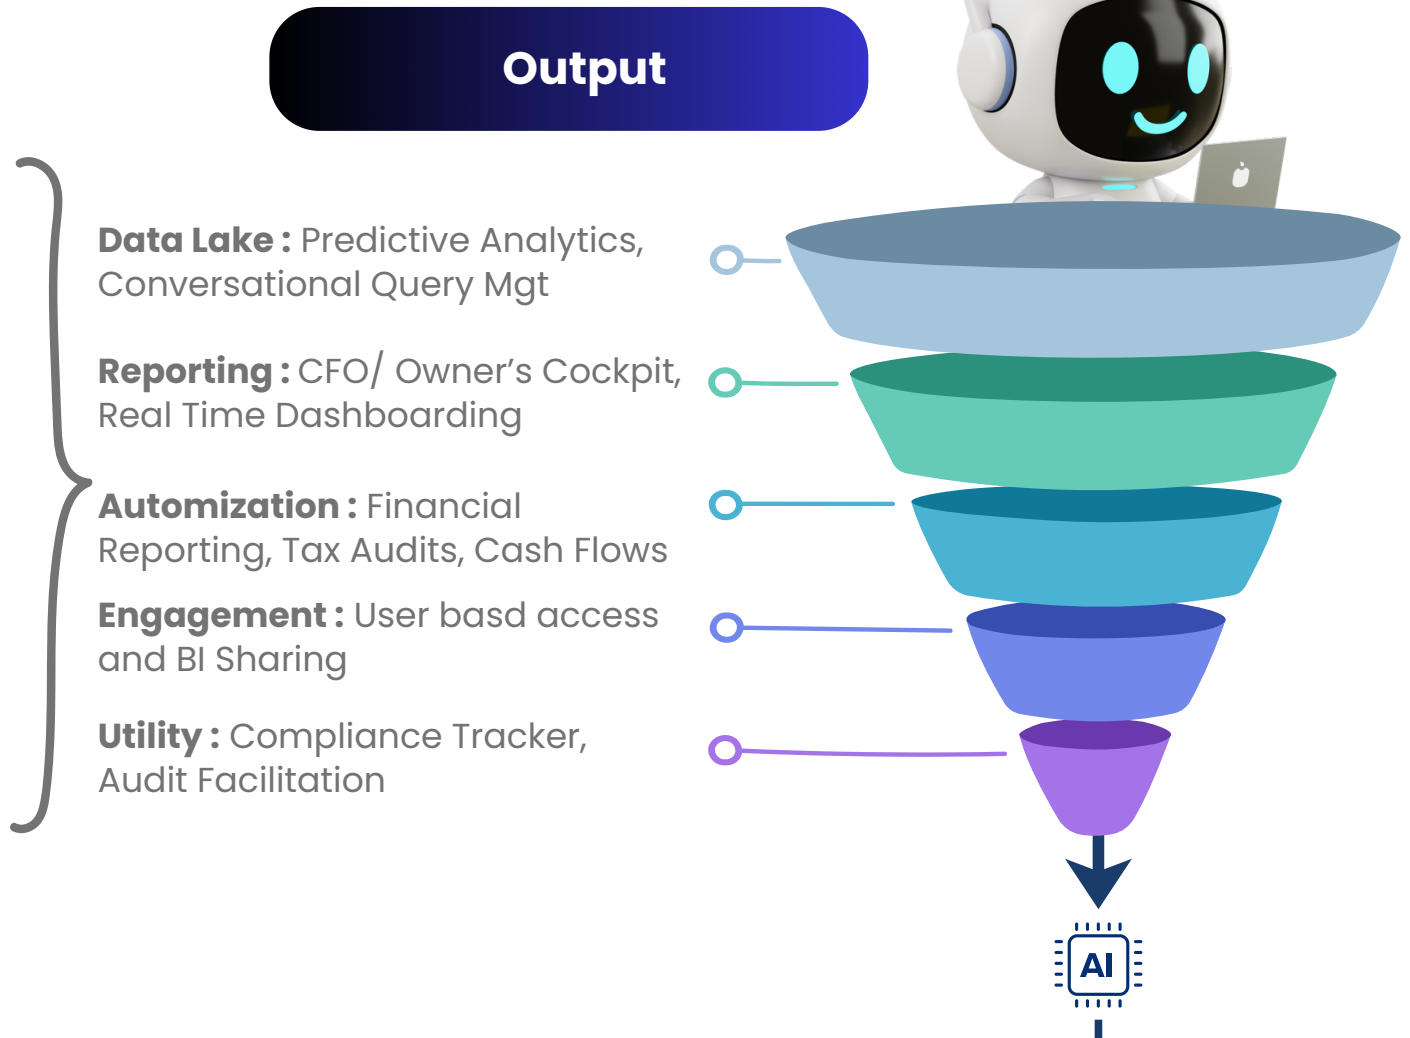

Products — SaviAGNT Suite

- SaviAGNT -Parselt**
Doc Scanning & Parcer, Field Mgt, Excel / CSV Output
- SaviAGNT - Mold**
UI Based Excel Macro, ERP Integration, RPA

- SaviAGNT - Recon**
GSTR2B Reco
26AS Reco
Bank Reco
- SaviAGNT - AMP**
Approval Workflow Process

- SaviAGNT - Insights**
API Integration, Data Sync, Dynamic Dashboards, Semantics building
- Data Lakes / Layers**

Meet the Founders

Finance and technology expertise combined from the founder level up — not bolted on later.

Hemant Pandey

AI-Led Transformation

MBA (MDI) · MCA (NIT Jamshedpur) · AI Leadership (ISB) · 25+ years across IT and telecom, specialising in delivering business outcomes through AI-led transformation and consulting.

Ex: DevRev.ai, Amazon, Nokia, Capgemini, Daewoo Telecom

Hena Agrawal

Fund Management & Advisory

CA, 14+ years in private equity fund management, financial accounting & reporting, strategic finance and business advisory — helping companies achieve exponential growth.

Ex: Macquarie, Goldman Sachs, Vedanta, KPMG

Vivek Sharma

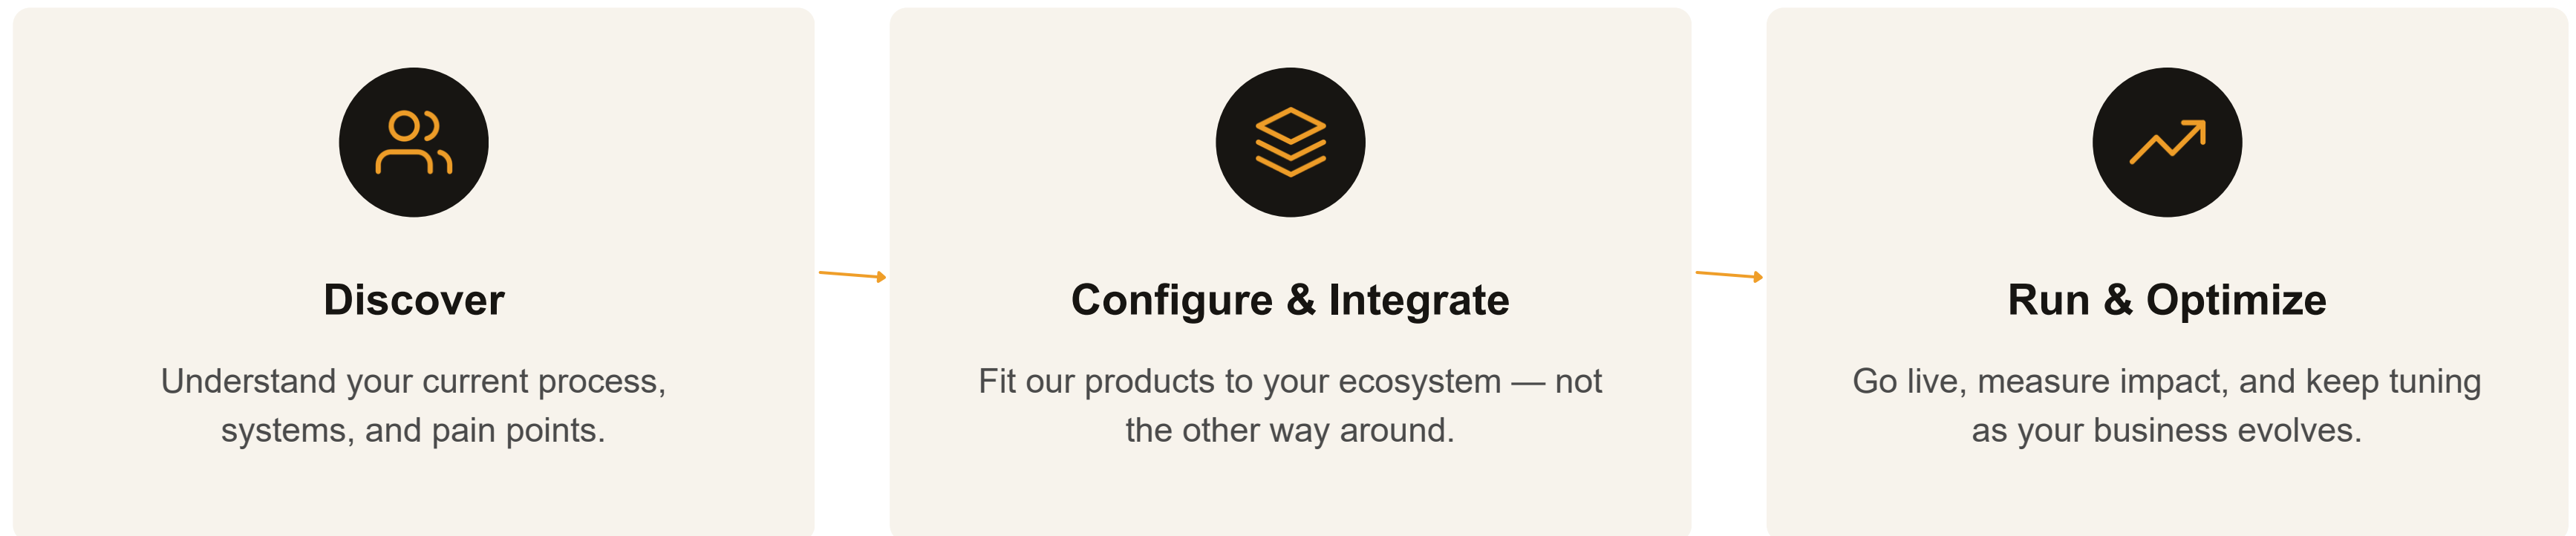

Strategic Finance & FP&A

CA, CS with 15+ years across commercials, strategic finance, FP&A and process optimisation — driving efficiency for a diverse portfolio of clients.

Ex: Samsung, Jindal, Minda, Mitsubishi

How We Work Together

Our finance and tech experts work directly with your team — our products are customized and fitted to your ecosystem, not a rip-and-replace.

PRODUCT INTRODUCTION

PARSEIT

STOP TYPING. START SCANNING.

Turn any document into **ERP-ready data in seconds.**

Invoices

Receipts

Bills

Purchase Orders

Forms

AI-POWERED. ACCURATE. ERP-READY.

OUR SOLUTION

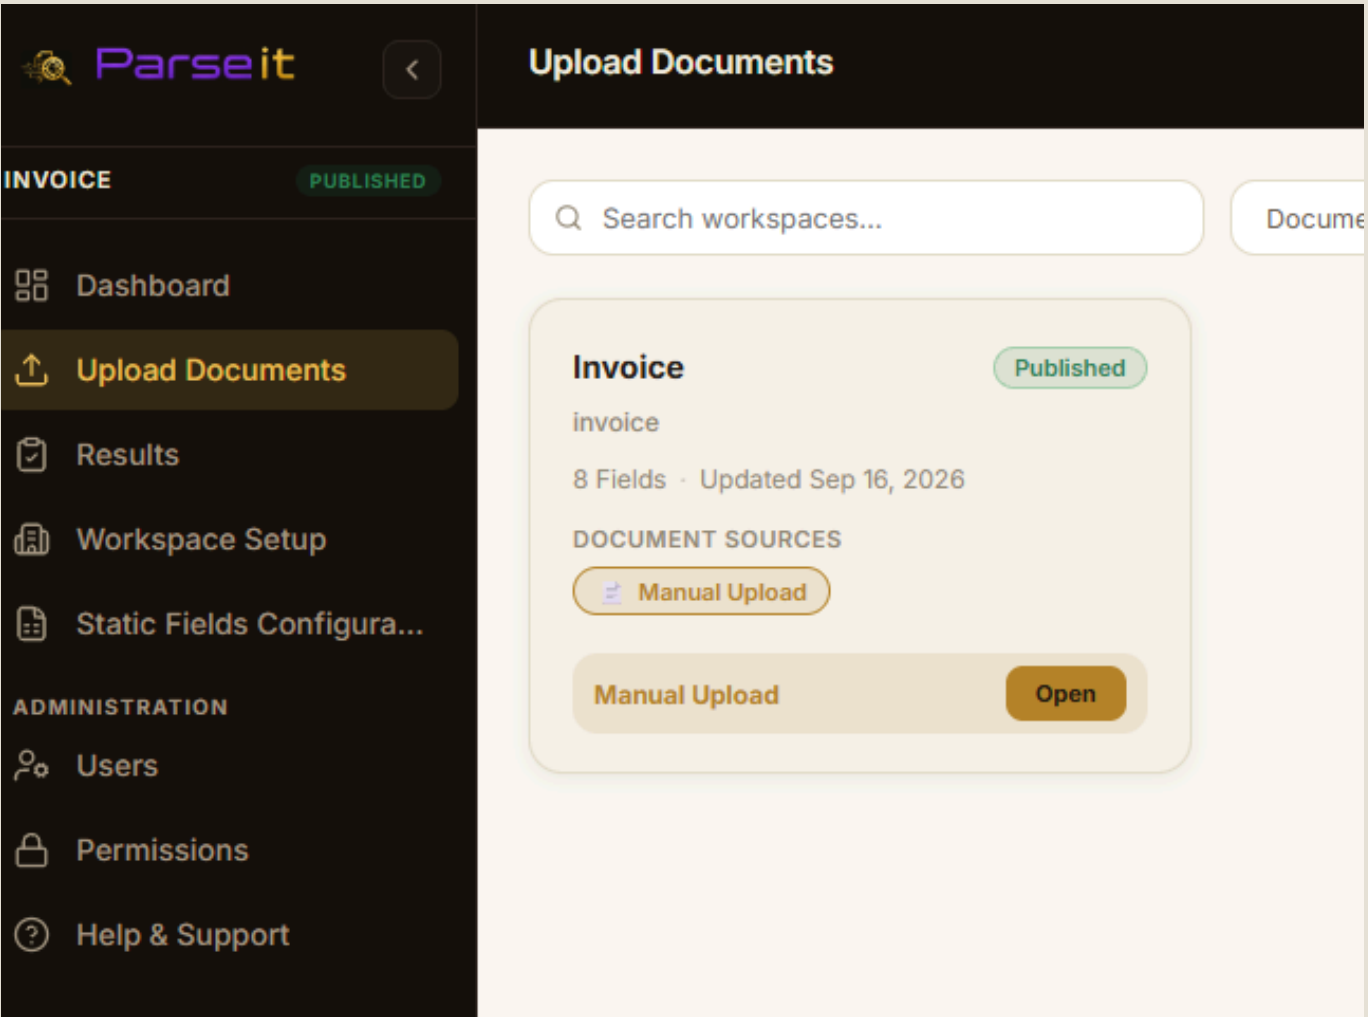

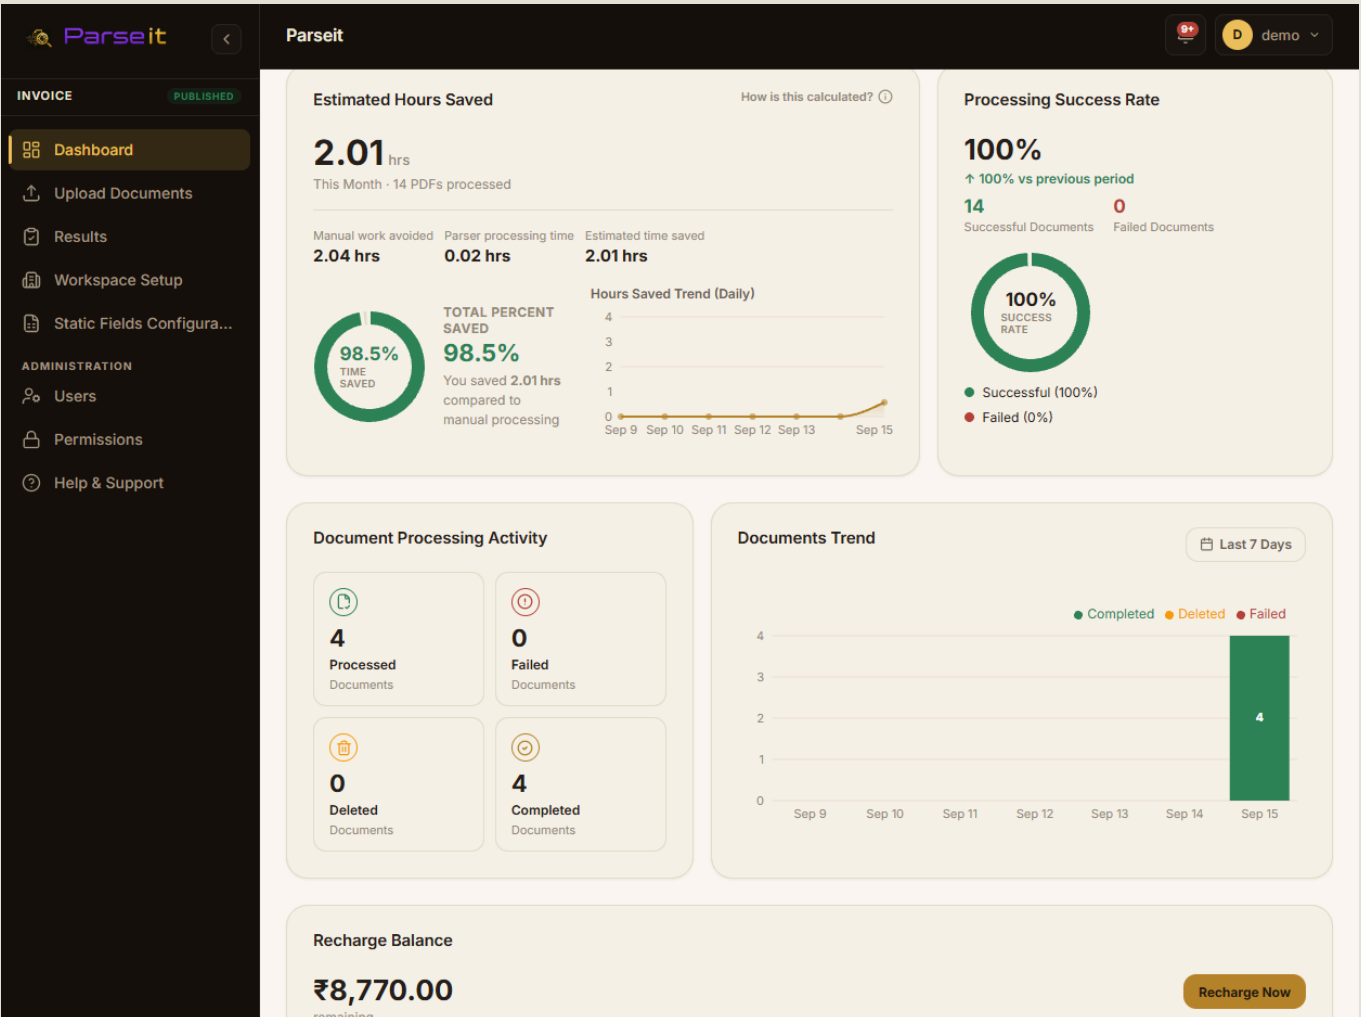

Products Built for the Finance Function

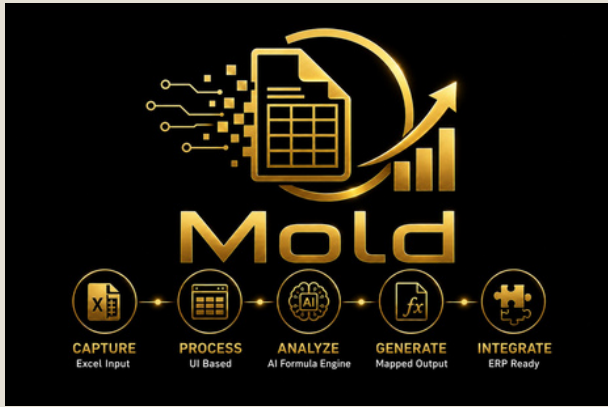

Parseit

INVOICE & EXPENSE AUTOMATION

- Reads invoices & expenses (scanned/PDF) straight into ERP-ready data
- Rule-driven extraction with an AI fallback; every result human-reviewed before export
- Manual upload, auto-upload, or direct read from email
- Saves ~70–80% of manual effort

Products Built for the Finance Function

Mold

RPA (Robotic Program Automation)

- Define a multi-step process once, reuse it every cycle
- Automatically captures output-sheet formulas for future input files
- Turns recurring spreadsheet work into a one-time setup

1 step · 0 inputs · 0 output columns

OUR SOLUTION

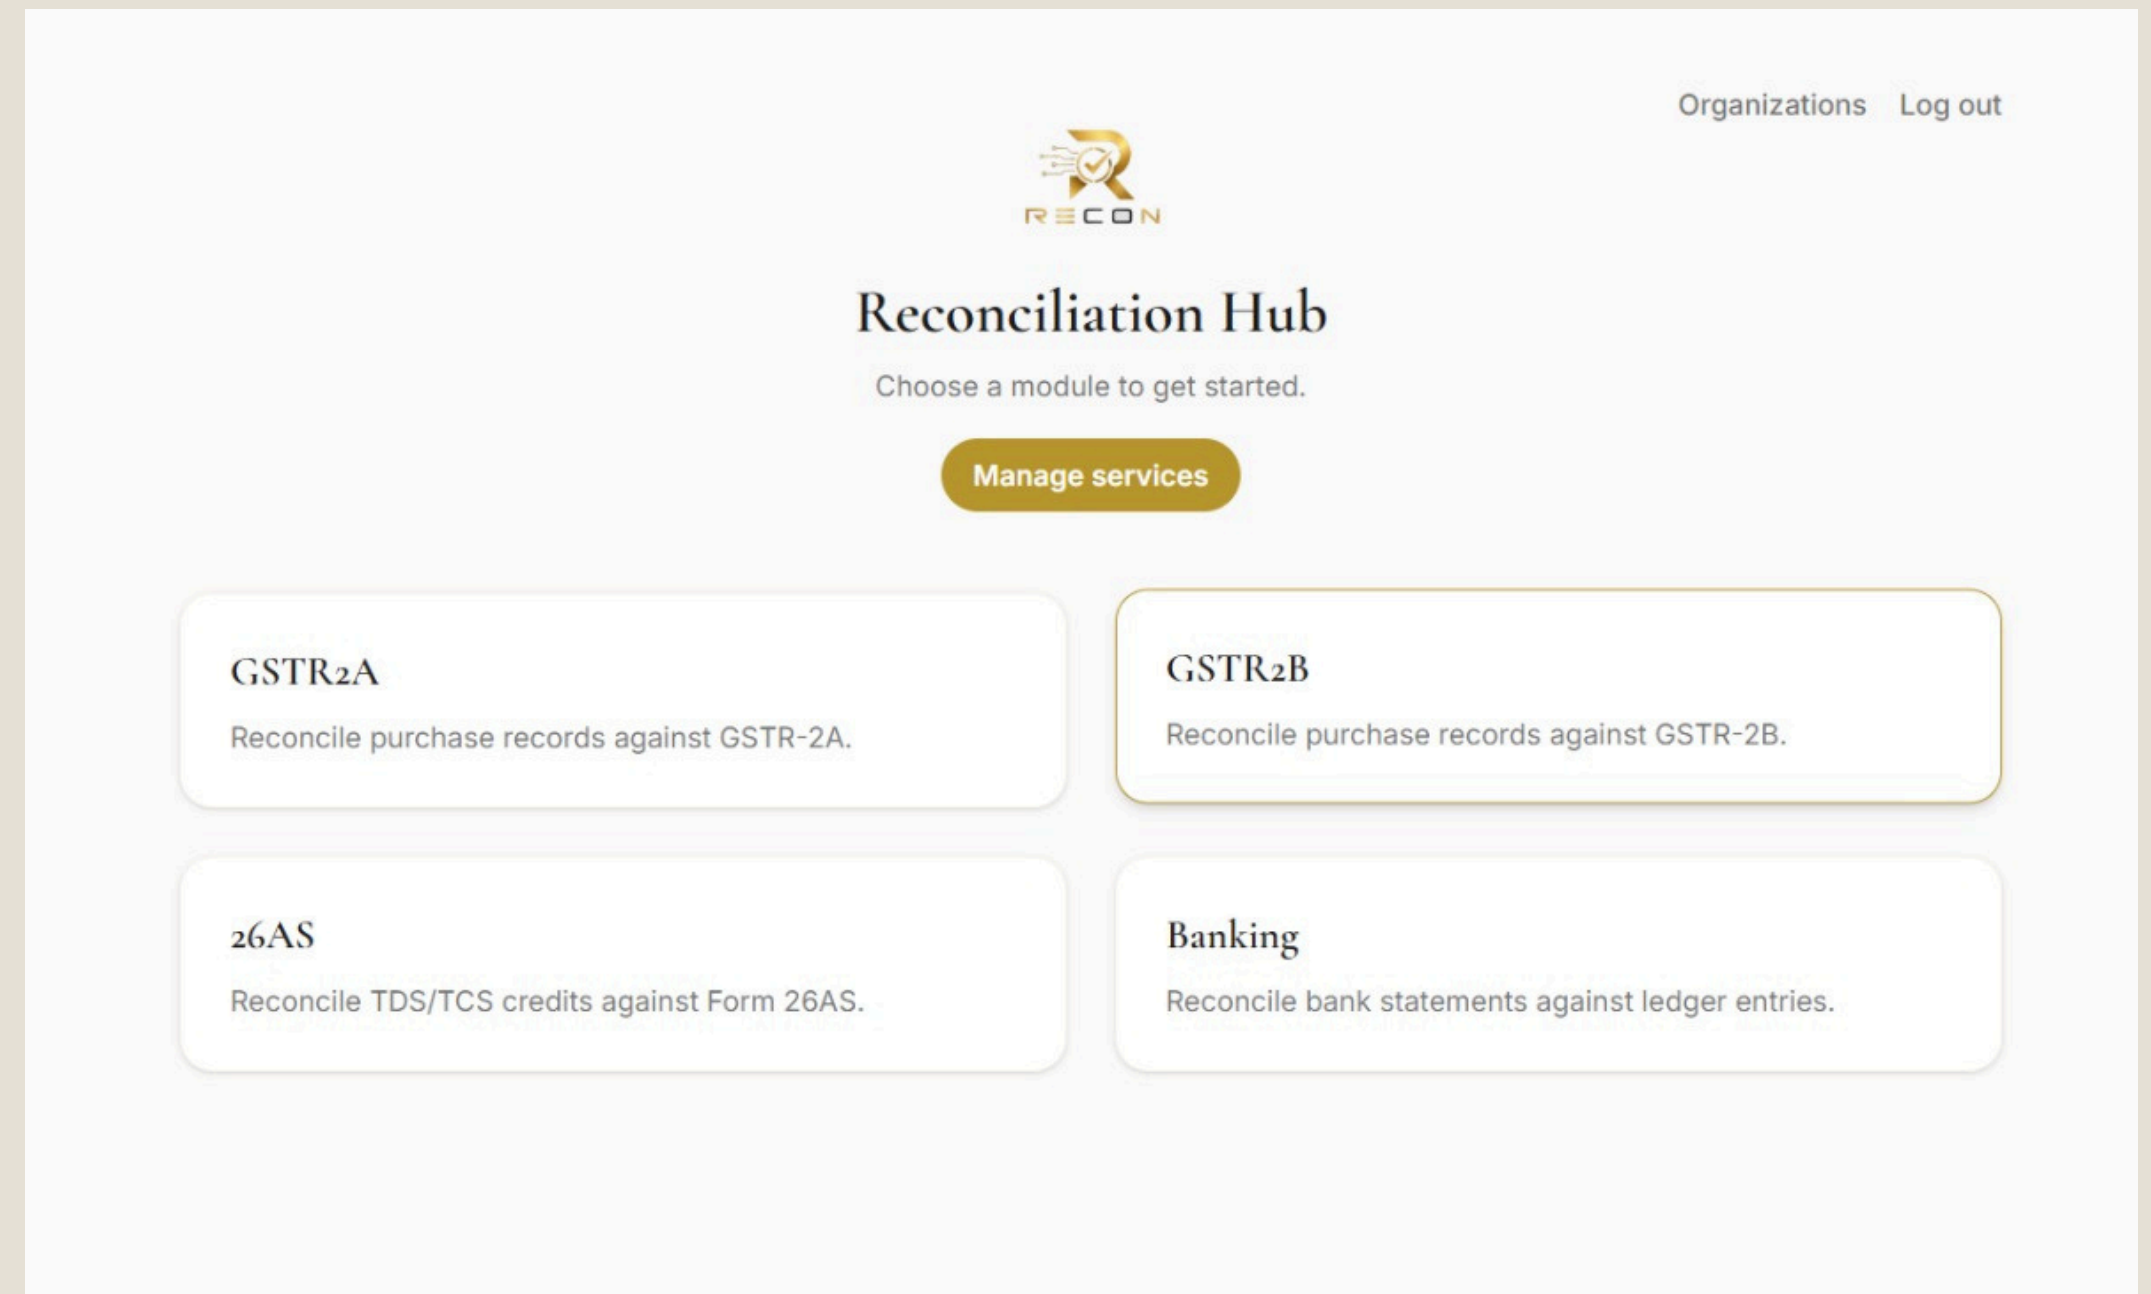

Products Built for the Finance Function

Recon

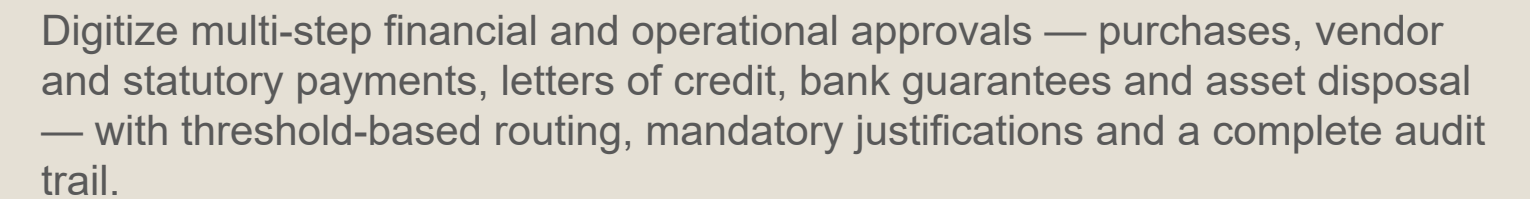

STATUTORY RECONCILIATION, AUTOMATED

- Automates monthly GSTR-2B and quarterly 26AS reconciliation
- Also covers GSTR-2A and bank-to-ledger reconciliation
- One system in place of parallel spreadsheets every cycle

MULTI-STEP APPROVAL WORKFLOWS

- ✓ **Threshold-based routing** — requests move through the right approval levels automatically, by role and amount
- ✓ **Mandatory comments on every action** — approve, reject and request-info decisions are always justified and traceable
- ✓ **Excel import and auto-totals** — supplier quotes, payment lines and taxes are imported and summed, not re-keyed
- ✓ **Immutable audit trail** — every approver, action, comment and timestamp logged end-to-end

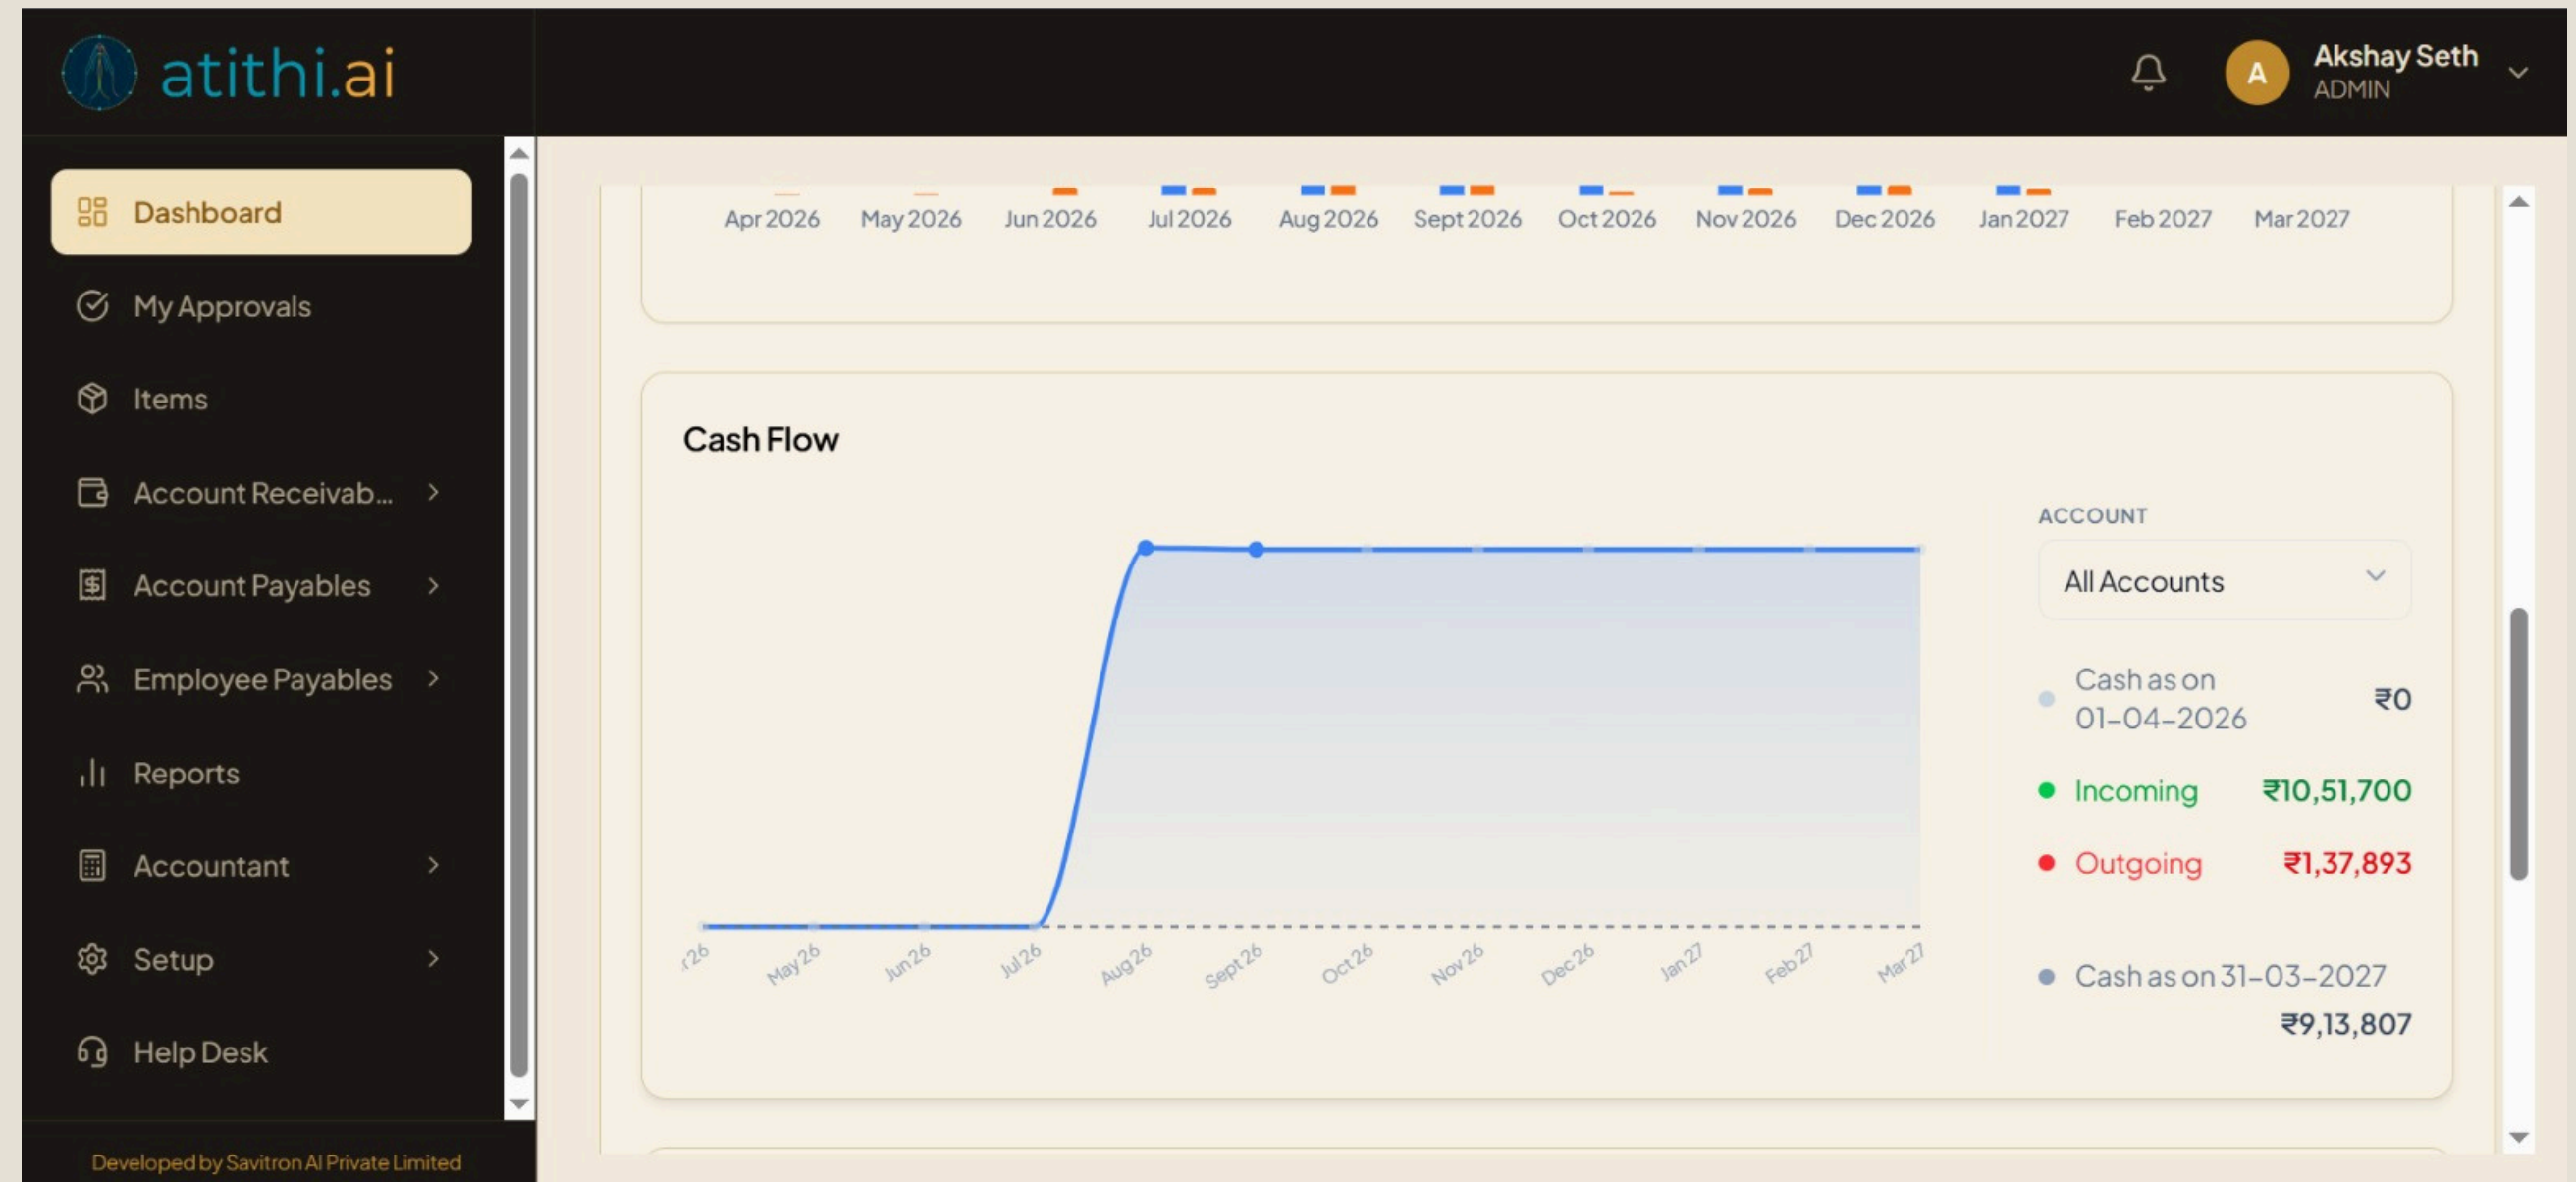

Products Built for the Hospitality Finance

Atithi

UNIFIED HOSPITALITY FINANCE

- Replaces fragmented systems & email approvals with one ecosystem
- Front-of-house transactions through owner-share settlements, unified
- Real-time P&L, cash flow, and budget variance per property
