

AI-Powered Assessment & Job Readiness Platform

Over 75% of graduates remain unemployable due to unaddressed skill gaps

The Problem

Students Reach Placements Without Knowing Whether They Are Job-Ready

- Today, colleges largely know:
 - How many students are registered for placements
 - How many students attended training
 - How many students got placed
- But they often don't know:
 - Who is actually job-ready?
 - What skills is each student missing?
 - Which students need intervention?
 - Which students are ready for which roles?
 - Is training actually improving employability?
- Result
 - Students: Unclear skill gaps
 - Colleges: Limited visibility
 - Training teams: Generic interventions
 - Recruiters: Large candidate pools with inconsistent readiness

The Insight

- Placement Readiness Cannot Be Measured Once.
- It Has to Be Built Over Time.
- A student's employability changes throughout their college journey.
- Year 1 → Year 2 → Year 3 → Year 4
- Assess → Identify gaps → Learn → Re-assess → Improve → Become placement-ready

From Lagging Indicators (Placement Day results)
to
Leading Indicators (Continuous Skill Tracking)

The Solution

- Skill Lens: Assessment → Insight → Improvement → Placement
 - Assess: Aptitude, English, Coding, Domain Knowledge, Industry Readiness
 - Analyse: Skill-gap identification, Student benchmarking, Department analytics
 - Improve: Targeted learning, Practice, Reassessment, Progress tracking
 - Ready: Role readiness, Placement preparation, Recruiter visibility

Our Product

One Platform Across the Student Employability Journey

- **Student** (To improve)
 - Skill profile
 - Assessment history
 - Skill gaps
 - Progress
 - Readiness score
- **Colleges** (For visibility)
 - Department analytics
 - Student benchmarking
 - Skill-gap reports
 - Placement readiness
 - Intervention tracking
- **Training Partner** (Target interventions)
 - Training requirements
 - Assessment results
 - Batch performance
- **Recruiter** (Readiness score)
 - Role-based candidate assessment
 - Candidate filtering
 - Skill-based shortlisting

Why Skill Lens Is Different

Traditional assessment	Skill Lens
One-time testing	Continuous assessment
Generic tests	Role/domain aligned
Marks	Skill intelligence
Student-level result	College-wide analytics
Placement-period focus	First-semester tracking
Test → score	Assess → Improve → Reassess

Market Opportunity

- ✓ A ₹250+ Cr Initial Market Opportunity Across AP & Telangana
 - ✓ TAM (Total Addressable Market) - ₹250+ Cr
- ✓ All relevant higher-education segments
 - ✓ SAM (Serviceable Addressable Market) - ₹165 Cr
- ✓ Tier 2 & Tier 3 colleges in AP + Telangana
- ✓ Initial SOM (Serviceable Obtainable Market)
- ✓ Realistic 3–5 year target based on college acquisition and student penetration

Traction

- Early Market Validation - 5 Colleges onboarded - 3,000+ Student registrations

Our Progress in Numbers

- Number of assessments conducted: 300+
- Number of active students: 2000+
- Number of paying colleges: 2
- Revenue generated: Rs 100000
- Number of college discussions: 15+ colleges (Equivalent to 40k+ students) **(As on 09-Sept-2026)**

Business Model

- Simple, Scalable Per-Student SaaS Model
