Professional Summary

Recent graduate with a strong foundation in application development, troubleshooting, APIs, databases, and problem-solving. Seeking an opportunity to contribute as an Application Support Engineer while continuously learning and growing in a professional environment.

Projects

1] TenderLens AI – AI-Powered Document Analysis Platform

- Built a document analysis platform using Python, FastAPI, PDF processing, and REST APIs to upload and process large PDF documents.
- Implemented document extraction, text processing, and error handling to manage different document sizes and formats.
- Integrated AI/RAG-based retrieval to provide relevant answers from uploaded documents and improve information access.

2] Smart Expense Tracker – REST API

- Developed a REST API using Node.js and Express.js for adding, viewing, filtering, calculating, and deleting expense records.
 - Implemented CRUD operations, input validation, error handling, and structured data management for reliable API responses.
 - Tested API endpoints using Postman and debugged request/response issues during development.
-

Technical Skills

Programming : Python, JavaScript, SQL

Web & APIs : REST APIs, FastAPI, Node.js, Express.js, React.js, HTML, CSS

Databases : MySQL, PostgreSQL

Tools : Git, GitHub, Postman

Core Concepts : Debugging, Troubleshooting, API Testing, Database Management, HTTP Basics

Experience

Open Source Contributor – GirlScript Summer of Code (GSSoC)

April 2026 – Present

- Contributed to open-source projects by working on GitHub repositories, issues, and pull requests.
- Collaborated with project maintainers and contributors to understand requirements and implement improvements.
- Reviewed, tested, and debugged contributions to resolve issues and maintain code quality.

Frontend Intern - Cognifyz Technologies

Dec 2024 - Jan 2025

- Developed responsive web interfaces using HTML, CSS, JavaScript, and Bootstrap.
 - Tested application features, identified bugs, and implemented fixes to improve functionality.
 - Worked with APIs and application components to ensure consistent and reliable performance.
-

Education

Sandip Institute of Engineering and Management

BE in Electrical Engineering CGPA:7.85

Nashik, MH

Nov 2022 - Aug 2026
