

ABDUL KAREEM GADHAFI A

Salesforce Developer | Apex | LWC | SOQL | Flow | Experience Cloud | PD1 Certified

+91 7339451032 | akg.gadhafi1456@gmail.com | www.linkedin.com/in/abdul-kareem-gadhafi-a-355533213 | Bangalore, Karnataka

PROFESSIONAL SUMMARY

Assistant System Engineer with 2 years of professional IT experience in SAP HANA database operations and production support, transitioning into Salesforce Development. Salesforce Platform Developer I (PD1) certified with hands-on experience building Salesforce applications using Apex, Lightning Web Components (LWC), SOQL, Flow Builder, and Experience Cloud. Developed practical Salesforce projects involving reusable LWC components, Apex controllers, SOQL-based data retrieval, automation, and Salesforce security/configuration concepts. Strong foundation in Salesforce fundamentals, Linux, Database Technologies, and Enterprise IT Operations.

CORE COMPETENCIES

- Apex, Triggers & Test Classes
- Lightning Web Components (LWC)
- SOQL & SOSL
- Flow Builder
- Experience Cloud
- Asynchronous Apex
- Salesforce Objects & Relationships
- Validation Rules
- Profiles & Permission Sets
- Governor Limits
- REST API Integration
- Data Loader & Workbench
- Salesforce Security (CRUD/FLS)
- SFDX & Change Sets
- Java & SQL

WORK EXPERIENCE

Assistant System Engineer

September 2024 – Present | Bangalore, Karnataka

Tata Consultancy Services

Assistant System Engineer | SAP HANA Database Operations & Support

- Supported SAP HANA production environments through database monitoring, health checks, backup validation, recovery, and incident handling.
- Performed performance and memory monitoring using HANA Studio, HDBSQL, SPC, and Linux command-line tools.

Full Stack Development Intern

February 2024 – April 2024 | Pudukkottai, Tamil Nadu

Meck Teck Research Foundation

Developer / Trainee | Full Stack Development Intern

- Developed MERN stack applications using MongoDB, Express.js, React, and Node.js with responsive UI and backend integration.
- Implemented CRUD operations, REST APIs, and database connectivity, gaining hands-on full-stack development experience.

PROJECTS

AKGadhafi Portfolio

Personal Salesforce Project

Salesforce Experience Cloud | LWC | Apex | SOQL

Demo: orgfarm-01214b277c-dev-ed.develop.my.site.com/akgportfoliosite1

- Built and hosted a personal portfolio website on Salesforce Experience Cloud using LWC, Apex, and SOQL, with reusable UI components and Apex controllers to fetch and display data dynamically.

Ignite Freaks Journal Web App

Final Year Academic Project

MERN Stack (MongoDB, Express.js, React, Node.js)

Demo: ignitefreaks.netlify.app

- Developed a MERN stack journal web application using React, Node.js, Express.js, and MongoDB with content management features.
- Implemented REST APIs, database integration, and search functionality for managing and retrieving journal content.

EDUCATION

B.E. in Computer Science and Engineering

2020 – 2024

Chendhuran College of Engineering & Technology (Anna University)

Pudukkottai, Tamil Nadu | CGPA: 8.81/10

HSC – Computer Science (80%) | SSLC (87.4%)
