Kumkum Soni

Software Developer | React.js · JavaScript · SQL
+91-9369415551 | sonikumkum18@gmail.com | LinkedIn | GitHub | Delhi, India

Professional Summary

Software Developer (MCA, 2026) skilled in React.js, JavaScript (ES6+), and SQL, with four React.js web applications (one live on Vercel) and a current Data Analyst internship using SQL and Python. Strong in Data Structures, OOP, and problem-solving. Seeking a software development internship to build clean, maintainable applications.

Technical Skills

Languages: JavaScript (ES6+), Python (Pandas, NumPy), SQL
Frontend: React.js (Hooks, State Management, Protected Routing), HTML5, CSS3, Responsive Web Design
Backend: Node.js
Cloud: AWS, Azure
Databases & Data Warehouse: Snowflake, MySQL, SQL (Joins, Aggregations, Subqueries, Normalization)
UI Frameworks & Libraries: Tailwind CSS, Bootstrap, React Router, Recharts, Backpack UI Components
Client-Side Data & Validation: Form Validation, LocalStorage, Search & Filtering, Role-Based Views, KPI Dashboards
CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Time/Space Complexity
Developer Tools & Deployment: Git, GitHub, VS Code, Vercel, Chrome DevTools

Experience

Accrivo Financial & Compliance Jun 2026 – Present
Data Analyst (Intern) *Ghaziabad, Uttar Pradesh (Hybrid)*

- Write SQL (MySQL) queries and Python (Pandas) scripts to extract, clean, and validate business and financial datasets for accurate reporting.
- Build KPI dashboards and reports in Power BI and Excel to track key business metrics and support decision-making.
- Collaborate with the team on day-to-day tasks and present findings and insights to the reporting manager.

Projects

PestCare | *React.js, JavaScript, Tailwind CSS, React Router* Sep 2026 Live Demo GitHub

- Built a responsive service booking platform with user registration, authentication, service discovery, and appointment booking; deployed on Vercel.
- Implemented protected routes, form validation, booking management, and cancellation workflows using React Router and LocalStorage; built reusable, mobile-first components with Tailwind CSS.

Employee Management System | *React.js, JavaScript, Bootstrap, Recharts* Jul 2026 GitHub

- Built a role-based HR application to manage employee profiles, departments, attendance records, and leave information.
- Implemented search, multi-filter, sorting, and form validation; developed KPI dashboards with Recharts to visualize workforce, attendance, and leave trends.

Blog Management System | *React.js, JavaScript, Bootstrap, React Router* Apr 2026 GitHub

- Developed a blog application supporting creation, editing, viewing, and management of dynamic blog content.
- Implemented search, category filtering, author profiles, comments, and dynamic routing using React Router; built reusable, responsive Bootstrap components.

StayNest | *React.js, JavaScript, Tailwind CSS, Backpack UI* Mar 2026 GitHub

- Built a rental booking platform for hotels, homestays, and villas with search, filtering, date selection, guest management, and wishlist.
- Implemented a multi-step booking workflow with live booking summaries, property detail pages, and image galleries using React Router and reusable components.

Education

Chandigarh University, Chandigarh 2024 – 2026
Master of Computer Applications (MCA) *CGPA: 7.55*
Bundelkhand University 2019 – 2022
Bachelor's Degree *70.3%*

Certifications

Skyscanner Software Engineering Job Simulation | *Forage Virtual Experience Program* Certificate
HackerRank Software Engineer (Intern) Skills Certification | *HackerRank* Certificate
