OBJECTIVE

Computer Science undergraduate (CGPA 8.7/10) with hands-on experience applying data structures, object-oriented programming, and full-stack web development to independent projects. Seeking an entry-level software role where I can apply my technical skills, keep learning, and contribute to building scalable, real-world applications as part of a collaborative team.

EDUCATION

SRM Institute of Science and Technology, Andhra Pradesh, India <i>B.Tech, Computer Science and Engineering — CGPA: 8.7 / 10</i>	Jul 2024 – May 2028
Board of Intermediate Education, Andhra Pradesh <i>Intermediate (MPC) — Percentage: 87%</i>	Aug 2022 – Apr 2024

CERTIFICATIONS

- Artificial Intelligence and Machine Learning — Short-Term Virtual Internship (120 hours), SmartBridge Educational Services Pvt. Ltd., in collaboration with Andhra Pradesh State Council of Higher Education (Aug 2026)
- Full Stack Development Virtual Internship, CodeAlpha, MSME-affiliated (Jun 2026)

SKILLS

- Languages:** C++, Python
- Web:** HTML, CSS, JavaScript, TypeScript, React
- Database & Backend:** MySQL, Supabase
- Core CS:** Data Structures, Object-Oriented Programming, Problem-Solving
- Tools:** GitHub, VS Code, MySQL Workbench
- Soft Skills:** Communication, Teamwork, Adaptability

PROJECTS

- Carbon Emission Calculator | C++, Python**
 - Built a carbon footprint estimation tool by applying object-oriented design to structure emission-calculation logic across transportation, energy, and lifestyle inputs
 - Designed an interactive, easy-to-use interface for data entry and result visualization to improve usability
 - Implemented conditional logic mapping user footprint data to personalized reduction suggestions
- Cartverse — E-Commerce Website | React, TypeScript, Supabase, Vite**
 - Built a full-stack e-commerce platform with product listing, search, filtering, and shopping cart functionality using React and TypeScript
 - Integrated Supabase for backend data management, authentication, and database operations, including implementing Google sign-in
 - Applied data structures and OOP principles to manage product catalog and cart state in the application logic
 - Designed responsive web pages for a consistent experience across devices

ACHIEVEMENTS

- Maintained a CGPA of 8.7/10 through B.Tech coursework
- Actively contributed to collaborative coding projects on GitHub using version control
- Participated in programming contests and technical workshops to strengthen problem-solving skills
