ABOUT ME

Frontend Developer specializing in **React.js, Next.js, TypeScript, and Tailwind CSS**, with hands-on experience building responsive, scalable, and component-driven web applications. Experienced in **REST API and AI API integration, reusable UI architecture, modern animations, and responsive design**. Built a **50+ component UI library** and AI-powered applications, with a strong focus on clean, maintainable code and polished user experiences.

PROJECT

[Itinera-AI - \(AI Trip Planner\)](#) , **Next.js, TypeScript, Tailwind CSS, Gemini API**

08/2026 – 08/2026

- Built an AI-powered trip planner that generates personalized itineraries based on destination, budget, interests, and travel preferences.
- Developed responsive itinerary pages with reusable components, animated interactions, and responsive layouts using Next.js, TypeScript, and Tailwind CSS.
- Integrated Gemini API responses with structured data handling, form validation, loading states, and error handling.

[Simp Design Library \(Component Library\)](#) , **React.js, Tailwind CSS, Vite**

03/2026 – Present

- Built a developer-focused UI library containing **50+ reusable React components** including buttons, cards, inputs, and interactive UI elements.
- Implemented **live component previews, instant code viewing, and one-click code copying** to streamline component integration.
- Designed a responsive component architecture with **dark mode support and reusable Tailwind CSS patterns**.

[AI Chat Application \(Gemini Clone\)](#) , **React.js, Tailwind CSS, Gemini API**

03/2026 – 03/2026

- Built a responsive AI chat application with **multi-turn conversations, typing animations, and Markdown rendering**.
- Managed application-wide chat state using **React Context API** for conversation persistence and component synchronization.
- Implemented responsive dark-mode UI with reusable React components and API error/loading state handling.
