OBJECTIVE

Python/Django Full Stack Developer with hands-on experience in designing and developing scalable web applications using Python, Django, Django REST Framework, React.js, PostgreSQL, Docker, and AWS. Skilled in building RESTful APIs, implementing CI/CD pipelines, and deploying containerized applications. Passionate about backend engineering, scalable system design, and delivering reliable, high-quality software solutions.

EXPERIENCE

Warehouse Supervisor

2023 - Present

Star Agriwarehousing Collateral Management Ltd

Kangeyam, Tamil Nadu

- Managed inventory operations by maintaining stock accuracy, coordinating daily warehouse activities, and ensuring timely order processing.
- Led a team to resolve operational issues through analytical problem-solving, effective coordination, and process improvement to maintain workflow efficiency.

React.js Intern

Mar 2026 - Jun 2026

The Entrepreneurship Network

Remote

- Developed responsive user interfaces using React.js and reusable components.
- Integrated REST APIs into frontend applications.
- Collaborated using Git and Agile development practices.

PROJECTS

Real-Time Chat Application

- Developed a real-time chat application using Django Channels, React.js, WebSockets, and Redis.
- Built 10+ REST APIs with Django REST Framework for authentication, users, and messaging.
- Containerized a 5-service architecture using Docker Compose and deployed it on AWS EC2.
- Automated CI/CD pipelines with GitHub Actions, improving deployment consistency.

Full Stack E-Commerce Web Application

- Developed a full-stack e-commerce application using Django, Django REST Framework, and React.js.
- Built 15+ REST APIs for authentication, products, cart, and order management.
- Optimized SQL queries and API performance, reducing database response time for product retrieval.
- Integrated frontend with backend APIs and validated endpoints using Postman and Git workflows.

EDUCATION

Master of Computer Applications, MPNMJ Engineering College

2021 - 2023

B.Sc Information Technology, RVS College of Arts and Science

2017 - 2020

SKILLS

Technical Skills

Python, Django, Django Rest Framework, React js, Sql, Git, AWS EC2, Docker, Jenkins.

Soft Skills

Problem Solving, Team Managment, Communication, Analytical Thinking

Core Concepts

SDLC Lifecycle, OOP , Unit Testing, Data Structures.
