PROFESSIONAL SUMMARY

Java/Spring Boot Backend Developer with 1+ year of hands-on experience designing, developing, testing and maintaining REST APIs for live eCommerce-style platforms. Built 35+ APIs covering authentication, search, booking, cart and checkout, with Stripe payment integration, JWT security and MySQL. Writes clean, well-documented code, follows team coding standards, debugs and resolves production issues, and collaborates in Agile teams through Git/GitHub and code reviews. Quick to learn new tools and technologies.

TECHNICAL SKILLS

Core Backend: Java, Object-Oriented Programming, Spring Boot, Spring MVC, Spring Security, Hibernate/JPA, JDBC, Servlets, JSP

API & Security: RESTful API Design, JWT Authentication, Role-Based Access Control, Exception Handling, Third-Party Integration

Databases: MySQL, SQL, Relational Database Design, SQL Query Optimization

Tools: Git, GitHub, Maven, IntelliJ IDEA, Postman

Practices: Agile Collaboration, Code Reviews, Debugging and Troubleshooting,Agentic AI, Claude Code, Unit/API Testing, Documentation, Deployment, Production Support

Frontend (Supporting): HTML5, CSS3, Bootstrap 5, JavaScript

PROFESSIONAL EXPERIENCE

Junior Java Developer | Barrownz Pearl Web Pvt. Ltd., Lucknow **Sep 2025 – Sep 2026**

- Designed, developed, documented and tested 35+ RESTful APIs in Java/Spring Boot for authentication, course/program listings, search, booking and checkout.
- Built eCommerce features including cart, checkout, membership packages and lesson packages, and integrated Stripe for payments.
- Implemented JWT-based authentication and role-based access control with Spring Security for user and administrator functions.
- Integrated backend services with MySQL using Hibernate/JPA and connected them to frontend components to deliver end-to-end workflows.
- Debugged and resolved defects, supported deployment and configuration, and assisted with production maintenance and incident troubleshooting.
- Followed team coding standards and architectural guidelines; participated in code reviews and used Git/GitHub for collaborative development.
- Maintained API documentation and tested endpoints with Postman to meet agreed delivery standards.
- Participated in the complete software development lifecycle, including requirement understanding, coding, testing, debugging, deployment and ongoing application maintenance

PROJECTS

ChessNYC – Chess Academy Booking Platform | Java, Spring Boot, Spring Security, JWT, MySQL, Stripe

- Contributed to a live platform supporting program discovery, coaching, camps, registrations, bookings and evaluation scheduling.
- Built REST APIs for authentication, listings, search, booking and checkout with secure, role-based access.
- Developed lesson-package and membership-plan features with cart and checkout workflows using Stripe.

RojgarShine – Job Portal Web Application | Java, Spring Boot, JWT, Hibernate/JPA, MySQL, Bootstrap

- Built a job portal with role-based functionality for job seekers, recruiters and administrators.
- Implemented JWT-secured APIs for job management, search, resume uploads and application tracking.
- Added server-side pagination and search filters, and optimized Hibernate/JPA queries for faster data retrieval.

EDUCATION

B.Tech, Computer Science and Engineering | Goel Institute of Technology & Management, AKTU, Lucknow | CGPA: 7.1 **2023 – 2026**

Diploma, Information Technology | Mahamaya Polytechnic of Information Technology, Amroha | 67% **2020 – 2023**

TRAINING

Java Full-Stack Development Program | Barrownz Learning Academy, Lucknow **Jul – Sep 2025**

Java, Spring Boot, Spring MVC, Hibernate, REST APIs, JSP/Servlets, JDBC, MySQL, Postman.

SOFT SKILLS

Problem-solving | Communication | Teamwork | Adaptability | Accountability | Time Management
