PROFESSIONAL SUMMARY

Final-year Computer Science and Engineering student with hands-on experience in **Java**, **React.js**, **Node.js**, **Docker**, and **AWS**. Experienced in building cloud-based web applications using **REST APIs**, **CI/CD** workflows, and modern AI-assisted development tools through academic projects and internships. Passionate about **Artificial Intelligence**, **Generative AI**, modern software engineering practices, and developing scalable **SaaS** applications.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python

Frontend: HTML5, CSS3, React.js, Tailwind CSS, GSAP, Shadcn UI

Backend: Node.js, Express.js, REST, Hibernate

Databases: MySQL, MongoDB, Redis, Supabase, Firebase, Convex

Cloud & DevOps: AWS EC2, Docker, Docker Compose, Git, GitHub, GitHub Actions, Linux (Basics)

AI-Assisted Development: ChatGPT, Claude, Cursor, GitHub Copilot, Gemini, Kiro, v0, Lovable, Antigravity

Core Computer Science: Operating Systems, Computer Networks, Multi-Threading, OOP, DBMS, DSA

EXPERIENCE

• VStand4U Solutions

February 2026 – May 2026

Java Full Stack Developer Trainee

Remote

- Developed full-stack web applications using **Java**, **HTML**, **CSS**, **JavaScript**, **MySQL**, **JDBC**, **JPA**, and **Hibernate**.
- Implemented backend functionalities including **CRUD operations**, **database connectivity**, and **Object-Oriented Programming (OOP)** concepts.
- Used **Git** for version control and collaborated on project-based development while following **Agile** software development practices.
- Performed **debugging**, **testing**, and **database integration** while gaining hands-on experience with the **Software Development Life Cycle (SDLC)**.

• Anvelos Softwares

June 2024 – September 2024

Frontend Developer Intern

Kundapura, Karnataka

- Designed and developed responsive, user-centric web interfaces for an education consultancy platform, improving **usability**, **accessibility**, and **cross-device compatibility**.
- Translated business requirements into intuitive frontend solutions, enhancing **user experience** and optimizing **application performance**.
- Collaborated with the development team to implement new features, resolve frontend issues, and ensure seamless integration with **Firebase**-backed services following **Agile** practices.

PERSONAL PROJECTS

• IgniteVidya – Gamified Learning Platform | [Live Demo](#)

Cloud-based full-stack SaaS platform for rural education.

- Developed a full-stack learning platform using **React.js**, **Node.js**, **Supabase**, and **Tailwind CSS** featuring live classes, real-time quizzes, leaderboards, and personalized learning.
- Integrated **Docker**, **AWS EC2**, **GitHub Actions**, AI-powered learning assistance, and REST API-based architecture.

• Gamified Developer Portfolio | [Live Demo](#)

Interactive portfolio with terminal-based navigation and gamified user experience.

- Built a responsive developer portfolio using **Next.js**, **React.js**, **Tailwind CSS**, **GSAP**, and **Supabase**.
- Implemented terminal-based navigation, reusable UI components, dynamic content management, and optimized frontend performance.

ACHIEVEMENTS

• Startup Pitch Competition Winner | Abhigyan 2025

Moodlakatte Institute of Technology

June 2025

- Secured **1st Place** by pitching **IgniteVidya**, a gamified learning platform for rural education.

• CodeCircuit Hackathon Finalist | Outlier.ai

Online

May 2025

- Ranked among the **Top 50** out of **5,000+** participants; built a Trivia Quiz Web App and received a paid freelance opportunity.

• AI Meme Generator Winner | Epitome 2K24

AIMIT, St. Aloysius University

Nov 2024

- Secured **1st Place** by developing an AI-powered meme generator.

EDUCATION

• Bachelor of Engineering in CSE

2022–26

Moodlakatte Institute of Technology Kundapura

CGPA: 8.14
