PROFESSIONAL SUMMARY

Java Developer with 3 years and 8 months of experience building enterprise applications and services using Java and Spring Boot. Experienced in REST API design, Spring Security and JWT, Spring Batch, SQL, service integration, microservices, and Kafka-based messaging. Delivered production enhancements for enterprise clients and reduced API development time by 25% through a reusable template.

TECHNICAL SKILLS

Languages: Java, Java 8, SQL, XML, XSLT

Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, REST APIs, Microservices, Apache Kafka, Spring Batch, Servlets, JSP

Security & API: Spring Security, JWT, CRUD, validation, exception handling, Swagger/OpenAPI, Postman

Databases & Tools: MySQL, PostgreSQL, Maven, Git, JUnit, JIRA

EXPERIENCE

Tata Consultancy Services (TCS) | System Engineer **Feb 2022 - Sep 2025**

Nagpur, India

- Built and maintained Java/Spring Boot applications and REST APIs for Honeywell International Inc., Titan Company Ltd., and Tractor Supply Company (TSC USA).
- Designed REST endpoints with CRUD operations, request validation, standardized error handling, and Swagger/OpenAPI documentation; implemented JWT authentication and authorization with Spring Security.
- Created a reusable API template with standardized configuration and error structures, reducing development time by 25%.
- Developed Spring Batch jobs using Java, XML, and SQL; investigated defects and supported testing, deployments, and production issue resolution.
- Developed Spring Boot microservices for enterprise client workflows, building REST APIs and integrating services with enterprise systems.
- Contributed to Kafka-based messaging for asynchronous business-data exchange between services, supporting integration testing and troubleshooting.

CLIENT PROJECTS

Honeywell International Inc. | Java, Spring Boot, Spring Batch, Microservices, Kafka, XML, XSLT, SQL | Feb 2022 - Feb 2023

- Developed Spring Batch processing for incoming and outgoing service integration interfaces, supporting business data workflows and exception handling.
- Contributed to Spring Boot microservice integrations and Kafka-based messaging to support communication and data exchange across services.

Titan Company Ltd. | Java, Spring Boot, REST API, Microservices, Kafka, Spring Security, JWT | Feb 2023 - Jun 2024

- Designed and maintained Spring Boot REST APIs with CRUD operations, request validation, error handling, JWT security, and Swagger documentation; coordinated API requirements and data flow with front-end teams.
- Supported microservice communication using Kafka messaging, helping services exchange business data asynchronously and integrate with service workflows.

Tractor Supply Company (TSC USA) | Java, Spring Boot, REST API, Microservices, Kafka | Jun 2024 - Sep 2025

- Developed and maintained Spring Boot REST APIs for client workflows, including request/response handling, input validation, business-rule routing, exception handling, and standardized error responses.
- Contributed to microservice integrations by connecting services and supporting consistent API communication across service boundaries.
- Worked with Kafka-based messaging to support asynchronous communication and business data flow between services; assisted with integration troubleshooting and production issue resolution.

EDUCATION

Rashtrasant Tukadoji Maharaj Nagpur University | 2021 - Bachelor of Engineering (B.E.) | CGPA: 8.73

Maharashtra State Board of Technical Education (MSBTE) | 2018 - Diploma in Engineering | 67.70%
