PROFESSIONAL SUMMARY

Computer Science student with hands-on experience building responsive web applications and cross-platform mobile applications using **JavaScript, React, React Native, HTML, and CSS**. Experienced in developing reusable UI components, integrating REST APIs, building backend services, debugging application issues, and using **Git/GitHub** for version control. Contributed to institutional and full-stack development projects.

EDUCATION

Inderprastha Engineering College Ghaziabad, India
Bachelor of Technology in Computer Science (AIML) Aug. 2024 – May 2028

EXPERIENCE

Mobile Application Developer - Jagruk Mahila Project 2026
Inderprastha Engineering College Ghaziabad, India

- Contributed to the development of a cross-platform mobile application focused on women’s legal awareness and access to support resources using **React Native and Expo**.
- Developed mobile application features for legal rights awareness, helplines, and landmark legal cases.
- Worked with a **Node.js and Express.js** backend to support application functionality and AI-powered assistance using the **Google Gemini API**.
- Worked on multilingual accessibility for English, Hindi, and Urdu, including right-to-left text rendering.

Web Project Lead - Official Website HackSphere IPEC Ghaziabad, India

- Lead development of the official society website, contributing to responsive and mobile-first frontend implementation.
- Build reusable UI sections and responsive layouts using **HTML, CSS, and JavaScript**.
- Collaborate on backend integration using **Node.js and Express.js** to support dynamic website functionality.
- Manage repository workflows and deployment using **Git, GitHub, and Render**.

PROJECTS

HackSphere IPEC - Official Website Live Demo — GitHub

- Built and deployed a full-stack web platform serving 200+ students for a college technical society.
- Developed responsive frontend layouts with a mobile-first approach and cross-device compatibility.
- Implemented structured routing and dynamic content integration with a **Node.js and Express** backend.
- Used Git-based version control to manage development and maintain an organised project architecture.

E-Commerce ChatBot GitHub

- Developed an interactive chatbot interface using **React, JavaScript, and reusable UI components**.
- Integrated REST APIs for product search and natural-language interactions.
- Implemented structured client-server communication between the frontend, backend, and external services.
- Designed a modular architecture separating frontend, backend, and AI service layers.

TECHNICAL SKILLS

Languages: JavaScript, Python, HTML5, CSS3
Frontend: React, React Native, Expo, Responsive Web Design, Reusable UI Components, DOM Manipulation
Backend: Node.js, Express.js, REST APIs, JSON
Tools: Git, GitHub, Render, GitHub Pages, Expo EAS
Concepts: Debugging, API Integration, Client-Server Architecture, Mobile-First Design, Multilingual UI
