PROFESSIONAL SUMMARY

React Native Developer with **1.5+ years of experience** building production-grade mobile applications using **React Native, JavaScript, TypeScript, REST APIs, authentication, and state management** across Android and iOS. Experienced in building **AI/agentic applications**, including **voice customer support agents, LLM workflows, and conversational AI systems**. Strong in end-to-end development, debugging, and delivering scalable user-focused products.

INTERNSHIPS

React Native Developer

Valura.ai

January 2026 - August 2026

Dubai , UAE - Remote

- Scaled core mobile workflows for a platform serving **2,500 + investors**, delivering end-to-end experiences across **stock trading, OGold, portfolio, wallet , KYC, and authentication**.
- Owned features end-to-end across **UI development, API integration, state management, debugging, optimization, and production delivery**.
- Built an **AI Customer Support Agent with Chatwoot integration and real-time voice capabilities**, automating support conversations and enabling seamless AI-to-human handoffs.

Full Stack Developer

Parents Software India Pvt. Ltd

February 2025 - August 2025

Onsite , Bangalore

- Built **Labor Link from scratch**, an industry-level workforce management platform, across mobile frontend, backend, APIs, and databases.
- Developed **React Native mobile features**, REST APIs, authentication, business logic, and end-to-end data flows.
- Handled **production debugging, API integrations, database optimization, and third-party service integrations**.

PROJECTS

Pet-Connect ([Github](#))

July 2026

- Built a **scalable React Native marketplace and discovery platform**, leveraging reusable components, React Hooks, state management, navigation, and responsive mobile UI.
- Engineered **location-based pet discovery and Tinder-style matching** using a 5-factor compatibility algorithm across breed, gender, age, distance, and health attributes.
- Developed **adoption and marketplace workflows** with search/filtering, pet profiles, listing creation, vaccination details, breeding availability, and owner interactions.
- Integrated **REST APIs, asynchronous data flows, chat, notifications, image caching, and background prefetching**, improving responsiveness across core user journeys.

Rail-Connect ([Github](#)) ([Demo](#))

April 2026

- Architected a multi-leg journey engine covering **1,800+ trains**, automatically discovering direct, one-change, and two-change routes with date-aware running-day logic.
- Developed an intelligent **route-ranking algorithm** that scores journeys using travel time, layover comfort, **interchange risk, train type**, class, and preferred hubs.
- Integrated live seat availability and train-running status to detect delay-sensitive connections and improve pre-booking

Sporto App ([Github](#))

July 2025

- Built **Sporto**, a production-ready Expo React Native sports platform for **turf discovery, booking, events, and competitive gameplay**.
- Developed core workflows including **turf booking, event management, team challenges, live scoring, payments, location services, and push notifications**.
- Implemented role-based experiences for **users and turf owners**, with supporting admin workflows for bookings, users, payments, events, and analytics.
- Integrated **REST APIs, Google Maps/location services, authentication, payment workflows, and real-time sports features** to deliver an end-to-end mobile experience.

SKILLS

- **Dev skills:** React Native, React, React Testing Library, Mobile Application Development, JavaScript, Claude Code, Network Security, AI digital tool for business, Chart.js, DBMS, MongoDB, API testing, Problem-Solving, Production Deployment, Deployment & Production, SAM Efficiency & Prompting, Performance Measurement & Tradeoffs, LLM, OpenAI API, HTML, CSS, Tailwind CSS

EXTRA-CURRICULAR ACTIVITIES

- Awarded **Top Contributor 2×** for consistent engineering contribution, ownership, and product impact.
- **Core committee** member of college fest
