

Sumith E V

Full Stack Developer | React.js | Node.js | AI-Native Development
91-8089981558 | sumithev02@gmail.com | linkedin.com/in/sumithev | github.com/Sumithgithub123

PROFESSIONAL SUMMARY

Full Stack Developer with around 2 years of professional experience building responsive and scalable web applications using React.js, Node.js, TypeScript, and MongoDB. Experienced in developing frontend interfaces, REST APIs, real-time features, background services, and business management platforms. Hands-on experience with WebSockets, Redis, BullMQ, Elasticsearch, Docker, and AI-native development workflows using modern AI coding tools and agents.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript

Frontend: React.js, Next.js, Redux, React Query, Tailwind CSS, Material UI, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, WebSockets, Redis, BullMQ, Kafka, Elasticsearch

Databases: MongoDB, MySQL

AI & Automation: AI-Native Development, LLM Applications, AI Agents, RAG, LangChain, n8n, MCP, Pinecone, Qdrant

AI Development Tools: GitHub Copilot, OpenAI Codex, Gemini CLI, AI Coding Agents

Tools & Platforms: Git, GitHub, GitLab, Docker, AWS EC2, Supabase, Postman

PROFESSIONAL EXPERIENCE

Web Developer

Pqxel

Nov 2024 – Present

Remote

Develop and maintain full-stack web applications using React.js, Node.js, Express.js, TypeScript, and MongoDB.

Contribute to **Vpickup**, a local delivery and e-commerce platform, by developing frontend interfaces, backend APIs, ERP dashboards, and real-time application features.

Build responsive dashboards and business management interfaces for lead management, CRM workflows, and operational processes.

Develop REST APIs and backend services for managing application data and supporting business workflows.

Implement real-time notifications and application features using WebSockets.

Contribute to **Lamp**, a lead management platform, by developing frontend and backend features, lead management APIs, search functionality, scheduled services, and background processing.

Implement scheduled tasks and background processing using cron jobs.

Develop frontend and backend features for **PointHut**, supporting CRM and ERP-related business workflows.

Develop responsive frontend features for **Grey Method**, a Pqxel client project involving CRM and ERP-related workflows, using React.js and Tailwind CSS.

Build reusable UI components and responsive interfaces across multiple application workflows.

Leverage AI-native development workflows and AI coding tools for code analysis, debugging, refactoring, and accelerating feature development.

React Developer Intern

Yohire Pvt Ltd

Aug 2024 – Sep 2024

Calicut, Kerala, India

Developed responsive frontend interfaces using React.js and modern JavaScript.

Worked with reusable UI components, API integration, state management, and responsive user interface implementation.

Collaborated on application development, debugging, and improving frontend functionality.

EDUCATION

B.Tech in Computer Science and Engineering

APJ Abdul Kalam Technological University (KTU)

CGPA: 7.91

2020 – 2024

Kerala, India
