Summary

Computer Science Engineering graduate with a strong foundation in **Java, OOP, Data Structures and Algorithms, and SQL**. Proficient in **Java Full Stack Development**, with hands-on experience in building web applications using **Spring Boot, React.js, and MySQL**. Passionate about developing efficient software solutions and continuously enhancing technical skills.

Education

Moodlakatte Institute of Technology Kundapura — Kundapura
Computer Science and Engineering (Data Science), Bachelor's of Engineering — 2022 – 2026
CGPA: 8.38

HKM Beary Comp PU College — Kundapura
PCMB, Pre-University Course — 2020 – 2022
Percentage: 91.3%

Bearys Sea Side Public School (CBSE) — Kundapura
Degree in Secondary School — 2019 – 2020
Percentage: 69%

Experience

KodNest Technologies | Java Full Stack Trainee — Bengaluru | Feb 2026 – Present

- Developing and practicing Java-based applications using Core Java, OOP, Spring Boot and SQL.
- Applying Java programming fundamentals, OOP concepts, problem-solving and debugging techniques to development tasks.
- Working with Java, HTML, CSS, JavaScript, React.js, and MySQL.

Skills

Programming Languages:	Java, JavaScript
Libraries / Frameworks:	Spring Boot, React.js
Web Technologies:	HTML, CSS
Tools / Platforms:	Git, VS Code
Databases:	MySQL

Projects / Open-Source

AutoCare Hub Smart Vehicle Service Booking System — *Java, HTML, CSS, MySQL, Spring Boot*

- Developed a Java web application for vehicle service booking and management with user and admin modules.
- Implemented vehicle registration, service booking, booking history tracking, and secure user authentication.

AI-Powered Digital Dermatology — *Python, HTML, CSS and JavaScript*

- Developed an AI-powered dermatology web application using Python, HTML, CSS, and JavaScript to classify skin diseases using CNN models.
- Implemented treatment recommendation features for early detection and personalized healthcare guidance.

Certifications

- Frontend Developer Internship – Anvelos Software (Dr. Thungas Manaswini Website).
- Java Full Stack Development – KodNest Technologies.
- Programming Fundamentals using Java – Infosys Springboard.

Honors & Awards

- 310+ LeetCode Problems Solved.
